

1. MUNICIPALITY/AREA INFORMATION

1.1 Name of municipality/area(s) to be covered by this permit:

City of Neosho, Missouri

1.2 Physical location of municipality/area(s) (address assigned):

203 E Main Street, Neosho, MO 64850

1.3 Total area of municipality/area (s) _____ acres or 15.9 square miles.

2. STORMWATER MANAGEMENT PLAN (SWMP) INFORMATION (Attach additional sheets as necessary)

2.1 A Stormwater Management Plan (SWMP) must be developed for this municipality/area. This plan must be developed in accordance with requirements & guidelines specified within the general permit for stormwater discharges from regulated MS4 activities.

2.2 a. This application is for coverage under the MOR04 Two-step MS4 General Permit. The application will be considered incomplete if the SWMP has not been developed in accordance with the terms of the general permit. **A copy of the SWMP must be submitted along with this application.**

b. This application is for coverage under the MOR04C Comprehensive MS4 General Permit.

2.3 Summarize the measures from the SWMP that will be used for **PUBLIC EDUCATION AND OUTREACH.**

- Maintaining a stormwater information page on the city website with up-to-date educational materials and links.
- Posting stormwater information on the City's Facebook page at least four times a year.
- Billboard Advertisement containing seasonally appropriate information about stormwater impacts, practices, and education for the public.
- Distributing EPA BMP fliers with each land disturbance permit and discussing BMPs during pre-construction meetings.
- Curbside yard waste collecting each fall.
- Educational booths at public events.

2.4 Summarize the measures from the SWMP that will be used for **PUBLIC INVOLVEMENT AND PARTICIPATION.**

- A 30-day public notice period for review of the draft permit and SWMP, with information posted on the City website and opportunities for public comment.
- Annual public meetings are advertised on the city website.
- Public comments can be submitted in person, by mail, email, or through the City's website.

2.5 Summarize the measures from the SWMP that will be used for **ILLICIT DISCHARGE DETECTION AND ELIMINATION.**

- Maintaining a current storm sewer system map and tracking outfall information.
- Prohibiting non-stormwater discharges via City Code and enforcing with inspections, fines, and abatement.
- Conducting dry weather field screening of outfalls and using an inspection checklist.
- Providing staff training and public education on illicit discharge hazards.
- Keeping records of inspections, incidents, and investigations.

2.6 Summarize the measures from the SWMP that will be used for **CONSTRUCTION SITE STORM WATER RUNOFF CONTROL.**

- City Code requires erosion and sediment controls for sites disturbing one acre or more (or part of a larger plan).
- Pre-construction plan reviews and required stormwater management plans for qualifying projects.
- Regular inspections and enforcement actions, including stop-work orders and fines.
- Requiring construction site operators to conduct and document self-inspections.
- Maintaining an inventory of active sites and tracking oversight inspections.

2.7 Summarize the measures from the SWMP that will be used for **POST CONSTRUCTION STORM WATER MANAGEMENT**.

- City Code requires land disturbance permits and maintenance agreements for permanent BMPs.
- Pre-construction plan review ensures appropriate structural and non-structural controls.
- Long-term maintenance and inspection of BMPs are required, with enforcement actions for noncompliance.
- An inventory of post-construction BMPs will be maintained and inspections tracked

2.8 Summarize the measures from the SWMP that will be used **FOR POLLUTION PREVENTION AND GOOD HOUSEKEEPING**.

- Annual and new-hire training for all relevant staff on pollution prevention, IDDE, and BMPs.
- Stormwater Pollution Prevention Plans (SWPPPs) for all municipal facilities, with annual inspections and tracking.
- Procedures for proper disposal of waste, vehicle washing, and facility maintenance.
- Annual review of the program to ensure compliance and effectiveness.

3. MUNICIPALITY/ AREA WATER BODY INFORMATION

3.1 The municipality/area(s) or discharge from MS4 is within 100 feet of waters classified per 10 CSR 20-7.031 Water Quality Standards (check each that applies, and for those present, please identify their location in an attachment):

- Public drinking water supply lake (L1)
 Major reservoirs (L2)
 Outstanding national or state resource waters
 Streams designated for cold-water habitat
 Permanently flowing streams (P), except for Missouri and Mississippi Rivers
 None

3.2 Is the discharge from the MS4 within two stream miles upstream of biocriteria reference locations as defined in 10 CSR 20-7.031?

- YES (If yes, please list these receiving waters in an attachment.)
 NO

3.3 Is any part of the area(s) defined as wetland? YES NO

Note: A Clean Water Act, Section 404 Permit may be required for the development in wetland area(s) from the US Army Corps Of Engineers.

3.4 Does any of the stormwater discharge to a sinkhole, losing stream, or any other topographical feature that would be a direct conduit to ground water?

- YES (If yes, please identify the location(s) of these geologic features in an attachment.)
 NO

4. CERTIFICATION

4.1 I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
